

Counseling and Consultative Services LLC Informed Consent

Automated Notetaker

Your clinician has opted to use a note-taking system as part of their effort to provide excellent care to clients. Note-taker temporarily records sessions and uses this recording to automatically generate a progress note (a required form of clinical documentation).

After a progress note is generated, the recording is automatically deleted from servers and database. Use of this technology allows your therapist to be fully present during your sessions, without having to slow down to take notes or trying to remember important information during the session. This allows them to focus all of their attention on your care.

The software used is HIPAA compliant and meets certain data privacy and security standards.

By signing this consent form, you agree to allow your clinician to record your sessions and utilize software to assist them in generating progress notes to document these encounters.
